The demand for qualified, safe and effective nurses is critical throughout North Dakota—most visibly in rural areas. That need spurred the creation of the Dakota Nursing Program whose mission and vision is to respond to the nursing needs of the people of North Dakota by delivering a high-quality nursing educational program to students through innovative instruction. The Dakota Nursing Program delivers a practical nurse certificate program and associate degree nurse program. Student nurses study in hands-on practical lab and clinical experiences with a local instructor along with classroom instruction delivered over interactive video network and online formats.

Dakota Nursing Program Is also offered at the Following sites

Bismarck State College at:

Ashley
Garrison
Harvey
Hazen

Dakota College at Bottineau at:

Minot
Valley City

Lake Region State College at:

Grand Forks
Mayville

Williston State College at:

Tioga

The Dakota Nursing Program provides quality evidence-based nursing education for practical and associate degree nurses, serves as a foundation for further professional advancement and contributes collaboratively to meet the diverse healthcare needs of the communities it serves.

Program applications can be obtained at www.dakotanursing.org or by contacting your college of interest. Applications are available December 1st and are due by March 5th.

Dakota Nursing Program

Dakota Nursing Program

RN to BSN

The Dakota Nursing Program has articulation agreements with three ND Universities. These agreements enable a smooth transition process into a baccalaureate nursing program. The AD student/BSN applicant can meet the university general education requirements at either the DNP community college or the university and then complete a minimum number of credits at the following universities to complete a BSN:

Mayville State University
Minot State University
University of Mary, Bismarck
